

Re: RoHS Compliance –

14 March 2022

To Whom It May Concern:

Wytech Industries LLC has made careful review of COMMISSION DELEGATED DIRECTIVE (EU) 2015/863 of 31 March 2015 amending Annex II to Directive 2011/65/EU of the European Parliament and of the Council as regards the list of restricted substances (RoHS 2). Wytech Industries LLC has also canvassed its supply base to determine if any of the restricted substances are present in our products above the threshold levels described in the directive. Our suppliers have confirmed their compliance to the RoHS 2 directive (with amendments) with respect to the threshold levels of the ten restricted substances. Wytech Industries LLC also does not intentionally add any of these restricted substances to our products during processing. Although the products produced by Wytech Industries LLC are, to our knowledge, not utilized for EEE applications, and thus are outside the scope of the RoHS 2 directive, we understand that our customers may have RoHS 2 requirements. It is the conclusion of Wytech Industries LLC that our products are compliant with the RoHS 2 Directive (with amendments).

Sincerely,

Adrian Marciniak
Quality Engineer
Wytech Industries LLC
