

Re: Reach Compliance

1 March 2023

To Whom It May Concern:

Wytech Industries LLC has made careful review of REGULATION (EC) No. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of December 17, 2014 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (recast) (REACH), with amendments. The products supplied by Wytech Industries LLC are defined under the REACH European Union legislative program as ARTICLES, and none of the components of Wytech Industries products are intentionally released during the use of our products when used “as intended” and in accordance with recommended specifications and parameters.

Wytech Industries LLC has canvassed its supply base to determine if any of the SVHC substances (January 2023 List) are present in our products as described in the directive. Our suppliers have confirmed their compliance to the REACH directive with respect to the SVHC substances. Wytech Industries LLC. also does not intentionally add any of these restricted substances to our products during processing. It is the determination of Wytech Industries LLC. that our products do not contain REACH SVHC materials.

Sincerely,

Adrian Marciniak
Quality Engineer
Wytech Industries LLC.
